Special Issue

PEAT: GEOCHEMISTRY, RESEARCH AND UTILIZATION, by David J. Boron (Editor)

Preface vii
An overview of peat research, utilization, and environmental considerations
D.J. Boron (Blacksburg, VA, U.S.A.), E.W. Evans (Pittsburgh, PA, U.S.A.) and J.M. Peterson (Albany, NY, U.S.A.) 1
Early diagenesis of organic matter in a sawgrass peat from The Everglades, Florida
W.H. Orem and P.G. Hatcher (Reston, VA, U.S.A.) 33
A microscopic investigation of woody tissues in peats: Some processes active in the peatification of ligno-cellulosic cell walls
S.A. Stout and W. Spackman (University Park, PA, U.S.A.) 55
FTIR studies of the contributions of plant polymers to coal formation
C.A. Rhoads, P.C. Painter and P.H. Given (University Park, PA, U.S.A.) 69
Study of the fate of plant polymers in peats by Curie-points pyrolysis
N.J. Ryan, P.H. Given (University Park, PA, U.S.A.), J.J. Boon (Amsterdam, The Netherlands) and J.W. de Leeuw (Delft, The Netherlands) 85
Anaysis of wax and resin components from Minnesota peat bog
D. Kumari (Bemidji, MN, U.S.A.) 99
Peat beneficiation by wet carbonization
F.S. Lau, M.J. Roberts, D.M. Rue and D.V. Punwani (Chicago, IL, U.S.A.), Wu-Wey Wen (Pittsburgh, PA, US.A.) and P.B. Johnson (Duluth, MN, U.S.A.) 111
Bitumen and wax yields from wet-carbonized, hydrolyzed and untreated peats
S.A. Spigarelli, F.H. Chang and D. Kumari (Bemidji, MN, U.S.A.) 123
Characterization and quantification of changes occurring in the low-severity dewatering of peat
S. Léger and E. Chornet (Sherbrooke, Qué., Canada), and R.P. Overend (Ottawa, Ont., Canada) 135
A historical perspective of atmospheric chemicals deposited on a mountain top peat bog in Pennsylvania
W.R. Schell (Pittsburgh, PA, U.S.A.) 147
Relationship between peat geochemistry and depositional environments, Cranberry Island, Maine
R. Raymond, Jr. (Los Alamos, NM, U.S.A.), C.C. Cameron (Reston, VA, U.S.A.), and A.D. Cohen (Los Alamos, NM, U.S.A.) 175
Comparison of bulk and elutriate test data from a New York peat mining operation: Leachability of selected trace elements
D.F. McNeill and R.J. Kinsley-Momberger (Gainesville, FL, U.S.A.) 189

Research Papers
Petrographic classification of oil shales
A.C. Hutton (Wollongong, N.S.W., Australia) 203
Scientific classification of bituminous coals
M. Košina (Prague, Czechoslovakia) 233
Concentration of elements in lacustrine coals from Zone A Hat Creek Coal Deposit No. 1, British Columbia, Canada
F. Goodarzi (Calgary, Alta., Canada) 247

A study of trace elements in lithotypes of some selected Indian coals
R. Ghosh, T. Majumder and D.N. Ghosh (Dhanbad, India) 269
Petrological, chemical and depositional aspects of eastern Himalayan coals from Elephant Flat area, Kameng district, Arunachal Pradesh, India
B.K. Misra (Lucknow, India), M. Ahmed (Assam, India) and G.K.B. Navale (Lucknow, India) 279

Short Note
Uranium content and distribution in whole-coal samples, Sydney Coalfield, (Upper Carboniferous), Nova Scotia, Canada
E.L. Zodrow, S.K. Banerjee and D.R. Jessome (Sydney, N.S., Canada) 299

Research Papers
Earlier sediment differential compaction in Gibson County, Indiana
D.L. Eggert (Bloomington, IN, U.S.A.) 305
Identification of mine roof susceptibility to air slacking
R.A. Cummings (Tucson, AZ, U.S.A.) 315
Design guidelines and instrumentation for in-situ stress and rock discontinuity conditions in coal mines
J.E. O'Rourke and P.H. Rey (San Francisco, CA, U.S.A.) 325
Determination of contributors to coal seam structure in Sullivan County, Indiana
S.C. Adams (Cincinnati, OH, U.S.A.) and G. Kullerud (West Lafayette, IN, U.S.A.) 339
Coal deposits of the United States
W.J. Nelson (Champaign, IL, U.S.A.) 355
Economics of the coal industry east of the Mississippi, 1973–1982
S.B. Bhagwat (Champaign, IL, U.S.A.) 367
Graphitization of Korean Anthracites as studied by transmission electron microscopy and X-ray diffraction
A. Deurbergue and A. Oberlin (Pau, France), J.H. Oh and J.N. Rouzaud (Orleans, France) 375
